BIO 386

ENTOMOLOGY

Fall Semester 2014

Insects are incredibly diverse, fascinating, and relevant to basic and applied biological research and human society.

This introductory course provides a broad and engaging overview of insect biology. Optional **fields trips** are offered in and around Phoenix, and lab sections focus on learning **hands-on skills in insect preparation and identification.**

- **4 credits** (Pre-Reqs 181/2 or 281/2)
- **Lectures** MW 9-10:15 am
- **Lab sections** available M-F (pm)
- **Instructor** Nico Franz (LSA 129)
- **Contact** nico.franz@asu.edu
- **Website** <http://taxonbytes.org/>
